NH DHHS COVID-19 Update – February 12, 2021

Concord, NH – The New Hampshire Department of Health and Human Services (DHHS) has issued the following update on the new coronavirus, COVID-19.

On Friday, February 12, 2021, DHHS announced 464 new positive test results for COVID-19, for a current PCR test positivity rate of 2.8%. Today's results include 253 people who tested positive by PCR test and 211 who tested positive by antigen test. There are now 3,216 current COVID-19 cases diagnosed in New Hampshire. Of the results reported today:

- **2/10:** 66 new cases today, for an updated total of **416** cases
- **2/11:** **398** new cases

Test results for previous days are still being processed and the total number of new positives for those days are not yet complete. Updated case counts for prior days will be reflected on the [COVID-19 interactive dashboard](#).

Several cases are still under investigation. Additional information from ongoing investigations will be incorporated into future COVID-19 updates. Of those with complete information, there are fifty-nine individuals under the age of 18 and the rest are adults with 48% being female and 52% being male. The new cases reside in Rockingham (98), Strafford (96), Hillsborough County other than Manchester and Nashua (61), Grafton (35), Merrimack (35), Cheshire (14), Belknap (9), Sullivan (6), Carroll (5), and Coos (3) counties, and in the cities of Manchester (53) and Nashua (30). The county of residence is being determined for nineteen new cases.

Community-based transmission continues to occur in the State and has been identified in all counties. Of those with complete risk information, most of the cases have either had close contact with a person with a confirmed COVID-19 diagnosis or are associated with an outbreak setting.

DHHS has also announced nine additional deaths related to COVID-19. We offer our sympathies to the family and friends.

- 1 male resident of Cheshire County, 60 years of age and older
- 2 female residents of Coos County, 60 years of age and older
- 2 female residents of Hillsborough County, 60 years of age and older
- 1 male resident of Hillsborough County, 60 years of age and older
- 2 female residents of Rockingham County, 60 years of age and older
- 1 male resident of Sullivan County, 60 years of age and older

There are currently 131 individuals hospitalized with COVID-19. In New Hampshire since the start of the pandemic, there have been a total of 70,072 cases of COVID-19 diagnosed.

Current Situation in New Hampshire

New Hampshire 2019 Novel Coronavirus (COVID-19) Summary Report (updated February 12, 2021, 9:00 AM)

NH Persons with COVID-19	70,072
Recovered	65,730 (94%)
Deaths Attributed to COVID-19	1,126 (2%)
Total Current COVID-19 Cases	3,216
Current Hospitalizations	131
Total Persons Tested at Selected Laboratories, Polymerase Chain Reaction (PCR) ₂	614,990
Total Persons Tested at Selected Laboratories, Antibody Laboratory Tests ₂	37,010
Persons with Specimens Submitted to NH PHL	67,840
Persons with Test Pending at NH PHL ₃	515

₁Includes specimens positive at any laboratory and those confirmed by CDC confirmatory testing.

₂Includes specimens tested at the NH Public Health Laboratories (PHL), LabCorp, Quest, Dartmouth-Hitchcock Medical Center, and those sent to CDC prior to NH PHL testing capacity.

₃Includes specimens received and awaiting testing at NH PHL. Does not include tests pending at commercial laboratories.

COVID-19 Vaccine Allocation Update

Allocation Summary through Thursday, February 11, 2021 – First Doses Only

Phase	Doses allocated to date	Estimated persons in group	% of needed amount allocated
Phase 1a	112,915	112,915	100%
Phase 1b	62,110	325,000	19%
State reserve for outbreaks or emergency needs	1,100	1,100	100%
Total	176,125	439,015	65%

Vaccine Doses Allocated, Distributed, and Administered by Vaccination Site Group

Vaccination Sites	Doses Available for Site to Order ¹	Doses Distributed ²	Total Doses Administered to Patients ³	First Doses	Second Doses
Hospitals	79,755	67,330	67,086	40,123	26,963
Long-term care pharmacy partnership program*	66,300	54,100	37,919	23,294	14,625
State-managed fixed sites	112,325	85,765	76,493	63,773	12,720
Regional public health network mobile sites	19,300	13,055	10,281	8,669	1,612
Other	6,345	1,185	1,235	832	403
Total	284,025	221,435	193,014	136,691	56,323

¹ Doses available for site to order are the number of first and second doses that have been made available to the site to order.

² Doses distributed are the number of first and second doses that the site has ordered and received at their location. Orders are based on clinic schedules and average uptake of vaccine by participants.

³ Doses administered may exceed the number of doses distributed due to the ability to get extra doses out of a vial, depending on the type of syringe used.

* The LTCF PPP is a federal program that sends pharmacies into LTCF to vaccinate residents and staff. In order for LTCF to access this program in New Hampshire, NH DHHS was required by the CDC to allocate a fixed number of doses to guarantee that pharmacies would have enough vaccine to complete vaccination administration within a four-week time frame. This program remains on schedule as originally anticipated and will be continually monitored to ensure completeness.

Vaccine Doses Distributed, and Administered by Vaccination Site*

Winnepesaukee RPHN	1,120	1,177	800	377

¹ Vaccine is distributed equitably across the state to vaccination sites based on a pro-rata share of vaccines available each week and population size of the region being served.

² Doses distributed are the number of doses that the site has ordered and received at their location. Orders are based on clinic schedules and average uptake of vaccine by participants.

³ Doses administered may exceed the number of doses distributed due to the ability to get extra doses out of a vial, depending on the type of syringe used.

Note: Data presented represent doses distributed and administered through February 11th, 2021.

Number of Tests Conducted by Date of Report to NH DHHS
